Dear Friends of University Games,
Welcome to our 2018 catalog of new games, puzzles and learning toys.

In 2017, we had some big changes at University Games. In May, our company's Co-Founder, Cris Lehman, retired. Cris started the Company with me in 1985 and has been a steady behind-the-scenes influence managing the day-to-day finances for the past 32 years.

In October, we completed our eleventh acquisition with the purchase of Paul Lamond Games. Paul Lamond is an established game/puzzle company in the United Kingdom. We are thrilled to welcome them to the University Games group.

In December, we finalized a very exciting arrangement with a top European game company, Megableu Group. This joint venture, Megableu USA, will be introducing international hits to the US market at the New York Toy Fair and throughout 2018.

Thanks again for your support, advice and encouragement over the past 33 years.

Here's to you and a great 2018!

Bob

WHATZ HAPPENING!

2017 was our Year of the Retailer, and we worked hard to deliver to you with products, programs and people to help you be more successful.

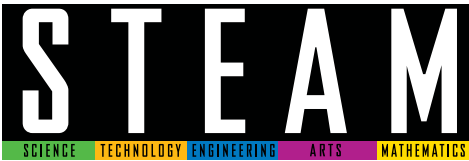

In 2018, our team is committed to sharing our interest in Learning, Educating and Fun. How will we do this? We have some of the answers but not all of them. Let us know any of your ideas on how we can better deliver on our vision for 2018. Here's where we are so far:

LEARNING Emerging categories and new consumer trends: We plan to keep retailers informed on industry trends, millennial buying habits, international innovations, best practices and new products all year long.

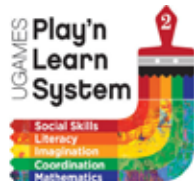

EDUCATING STEAM now has true energy: We are creating a 21st century free-standing display for our science themed glow line (Great Explorations). We plan to place free-standing STEAM displays in more than 500 stores and hope that you will be part of our "Go for the Glow" program.

AND FUN Social Media is part of our lives: University Games is staking a leadership position on building community with you and your customers through social media. We are connecting with people and finding new and creative ways to introduce new games. We also are building awareness and popularity with a new generation of game and toy players. Whether it is video (which you can post on your websites) or our University Games' channels (Facebook, Twitter, Instagram and more), we will be there. Call or email and we will share everything we know about social media with you.
